

	figure name	
001	plot particles per volume with subgroup inspiratory duration	
002	plot particles per flow rate with subgroup inspiratory duration	
003	best fit from pooled data V and dt	
004	Fit Function with CI for dt	
005	Fit Function with CI for dt	
006	scatter plot of particle emission versus breathing volume, subgroup inspiratory duration, including fit curves	
009	correlation plot inspiratory vital capacity to expiratory vital capacity	
010	correlation plot total lung capacity to alveolar volume	
011	best fit from pooled data V per TLC and dt	
012	Fit Function with CI for dt and V per TLC	
013	Fit Function with CI for dt and V per TLC	
014	scatter plot of particle emission versus breathing volume per TLC, subgroup inspiratory duration, including fit curves	
015	best fit from pooled data V per inspiratory vital capacity and dt	
016	Fit Function with CI for dt and V per inspiratory vital capacity	
017	Fit Function with CI for dt and V per inspiratory vital capacity	
018	scatter plot of particle emission versus breathing volume per inspiratory vital capacity, subgroup inspiratory duration, including fit curves	
007	density histogram particles per categorial volume with subgroup inspiratory duration	
008		
	density histogram particles per volume with subgroup inspiratory duration	
019	violin distribution chart for particles versus inspiratory duration, subgroup breathing volume	
020	box-and-whisker chart for particles versus categorial volume with subgroup inspiratory duration	
021		
	particle size distribution absolute number per volume subset inspiratory duration	
022		
	relative particle size distribution number per volume subset inspiratory duration	
023	particle size distribution absolute number per time subset inspiratory volume	
024	relative particle size distribution per time subset inspiratory volume	
025	equality histogram	
026	accuracy variance histogram	
027	equality boxplot per volume	
028	equality boxplot per inspiratory time	
029	accuracy variance boxplot per volume	
030	accuracy variance boxplot per inspiratory time	
031	sex distribution pie chart	
032	age histogram	
033	weight to height list plot	
034	bmi histogram	
035	FEV1 percent predicted	
036	FVC percent predicted	
037	FEV1/FVC percent predicted	
038	TLCO percent predicted	
039	alveolar volume percent predicted	
040	FRC percent predicted	
041	TLC percent predicted	
042	RV percent predicted	
043	RV/TLC percent predicted	
044	ERV percent predicted	
045	VC percent predicted
