

figure name	
best fit from pooled data V and dt	
fit Function with CI for dt	
fit Function with CI for dt	
scatter plot of particle emission versus breathing volume, subgroup inspiratory duration, including fit curves	
3d plot with inspiratory volume and inspiratory duration data and overall fit result including errors	
overall data fit plots with 95-CI in grid for inspiratory durations	
correlation plot inspiratory vital capacity to expiratory vital capacity	
correlation plot total lung capacity to alveolar volume	
density histogram particles per categorial volume with subgroup inspiratory duration	
density histogram particles per volume with subgroup inspiratory duration	
violin distribution chart for particles	
versus inspiratory duration, subgroup breathing volume	
box-and-whisker chart for particles versus categorial volume with subgroup inspiratory duration	
particle size distribution absolute number per volume subset inspiratory duration	
relative particle size distribution number per volume subset inspiratory duration	
plot particles per volume with subgroup inspiratory duration	
plot particles per flow rate with subgroup inspiratory duration	
particle size distribution absolute number per time subset inspiratory volume	
relative particle size distribution per time subset inspiratory volume	
equality histogram	
accuracy variance histogram	
equality boxplot per volume	
equality boxplot per inspiratory time	
accuracy variance boxplot per volume	
accuracy variance boxplot per inspiratory time	
sex distribution pie chart	
age histogram	
weight to height list plot	
bmi histogram	
histogram FEV1 percent predicted	
histogram FVC percent predicted	
histogram FEV1/FVC percent predicted	
histogram TLCO percent predicted	
histogram alveolar volume percent predicted	
histogram FRC percent predicted	
histogram TLC percent predicted	
histogram RV percent predicted	
histogram RV/TLC percent predicted	
histogram ERV percent predicted	
histogram VC percent predicted	
histogram FEV1 percent predicted	
histogram FVC percent predicted	
histogram FEV1/FVC percent predicted	
histogram TLCO percent predicted	
histogram alveolar volume percent predicted	
histogram FRC percent predicted	
histogram TLC percent predicted	
histogram RV percent predicted	
histogram RV/TLC percent predicted	
histogram ERV percent predicted	
histogram VC percent predicted
